2016-2017 SEAOSC Professional Practices Committee Charges

SEAOSC Vision

The Structural Engineers Association of Southern California (SEAOSC) is the premier professional organization to which local Structural Engineers belong. The organization serves its members in the noble profession of structural engineering by fostering and promoting the contributions of structural engineers to society.

SEAOSC Mission

SEAOSC is a member-centric organization, where substance and image are equally promoted through fiscally responsible management and optimization of the benefits to the members. SEAOSC leadership and membership will strive to reach the ideals represented by the following five pillars of the association: Membership Value, Image & Advocacy, Codes & Standards, Education, and Legislative Participation.

SEAOSC Professional Practices Committee Mission

Provide a forum to address professional issues related to the practice of structural engineering.

SEAOSC Professional Practices Committee Standing Charges

- Determine the committee mission and define committee charges
- Responsible for developing guidelines for professional conduct and addressing matters related to the practice of structural engineering
- Review and update prior SEAOSC Professional Business Practices Committee documents
- Address topics as scope of engineering services, contract matters, construction submittals, peer review and professional liability insurance
- Prepare and present one webinar
